3. Waste Disposal

To protect the environment by recycling and minimizing waste, 'Measured Rate System' is implemented in Korea. Fines will be imposed when violating this rule.

Standard plastic waste bags differ in each region(city/county) and cannot be used in other regions. In some regions, flammable waste and nonflammable waste have to be separated.

○ General Waste

You can purchase standard plastic waste bags in the local supermarkets and convenience stores. And the waste should be discharged at the designated spots after sunset.

○ Food Waste

Food waste should be disposed of using standard food waste plastic bag or food waste disposal containers.

Usually, in apartment complexes, food waste is put in the standard food plastic waste bag and disposed at the

food waste collecting container in the complex, and food waste disposal containers are used in individual houses.

○ Recycling

Paper, metal, glass, plastic, and clothes are collected separately for recycling.

○ Oversize Waste

To dispose of furniture, electrical appliances(TV, refrigerator, etc.), you should report to the local government offices and pay fees. Then attach the receipt to the disposed item and the waste will be collected by the office.
